Negombo, Sri Lanka

PROFESSIONAL SUMMARY

I Am a dedicated and innovative programming Graduate with a passion for game development. Proven leadership capabilities and a propensity to take the initiative and seek out new challenges. Experienced in planning, designing, and producing video games for various platforms, including computers, mobile devices, and game consoles. Proficient in creating visual content for games and writing code to implement features and functionality. A highly capable leader, continuously improving skills in a range of modern technologies, including C# and C++. A skilled team player with a strong background in diverse environments, capable of working independently to handle assignments, and always ready to go beyond basic tasks. A quick learner with good computer abilities, always ready to adapt and grow in the ever-evolving field of technology.
