SUMMARY

Motivated Unity game programmer with a first-class BSc (Hons) in Games Technology who enjoys collaborating across IT disciplines. I love working with various areas of technology, including backend, web, cloud, and tools, and I'm eager to expand my abilities beyond game development into broader software engineering. I bring strong C# and Unity experience, a hands-on approach to rapid prototyping and playtest-driven iteration, and a proven record of delivering polished, production-ready features while working with remote, cross-functional teams

KEY SKILLS

- **Soft skills:** – Collaboration & cross-functional teamwork · Clear written & verbal communication · Rapid prototyping & adaptability · Problem-solving & debugging · Time management & remote-work discipline · Playtesting-driven iteration · Creativity & game design thinking · Attention to detail & polish · Continuous learning & self-directed study
- **Technical skills:** - Unity (C#), Firebase (Auth), Git/GitHub, Basic Python, Basic SQL, HTML/CSS, Unreal Engine 4/5, Visual Studio, OBS Studio, Microsoft Office.
- **Other:** Playtesting & QA, Live streaming & content production, UI/UX polish, Animation & spawn systems, Mobile/WebGL optimisation

WORK EXPERIENCE

Game Programmer(Remote), G.O.A.T Collectables, Malaysia Jan 2025 - Present

- Develop and maintain game systems using C# in Unity, with a focus on gameplay mechanics and stability.
- Collaborate with designers and artists to translate concepts into playable features and polished UI.
- Integrated Firebase Authentication for secure user sign-in and account flows.
- Perform cross-platform testing, debugging, and performance improvements before releases; follow Git-based workflows and collaborate with distributed artists/designers.

Solar Proposal and Design Coordinator Vivid Vision (Pvt) Ltd, Sri Lanka Nov 2023 – Dec 2024

- Used OpenSolar to create and manage solar layout designs while supporting technical workflow and project coordination.
- Maintained and organised project data in Microsoft Excel, ensuring accuracy in records, proposals, and reporting.
- Collaborated with internal teams to support digital documentation, data handling, and operational efficiency across solar project tasks.

IT & Game Development Specialist, Freelance Oct 2022 - Jun 2024

- Produced and streamed regular game development content and playtests showcasing prototypes and mechanics.
- Built Unity prototypes (mechanics, UI, spawning/animation systems) used as playtest builds.
- Performed live playtests with viewers to gather feedback, prioritise fixes, and iterate quickly on UX/balance.
- Completed small-scale freelance data entry and data cleanup tasks for short-term projects, ensuring accuracy, consistency, and timely delivery alongside development work

System It Administrator(Intern), Zavy Technologies, Malaysia**Jun 2022 - Sep 2022**

- Implemented monitoring and optimisation strategies for uptime and performance; performed backups and preventive maintenance.

Data Clerk, Zavy Technologies, Malaysia**May 2021 - Jun 2022**

- Managed datasets with high accuracy using Microsoft Excel; suggested process improvements that reduced errors.

EDUCATION

Bsc (Hons) in Games Technology**2020 - 2023**

Limkokwing University of Creative Technology

- CGPA: 3.87

Foundation in Information Technology**2019 - 2020**

Limkokwing University of Creative Technology

- CGPA: 3.99

Foundation in Information Technology**2018**

St Peter's College Negombo Branch, Sri Lanka (Maths, Physics, ICT)

COURSES & PROFESSIONAL DEVELOPMENT

- AI/ML Engineer (Online) (SLIIT) (Ongoing)
- Basic Japanese N5 Course - Jul 2024 - Sep 2024 (completed)
- Crypto Fundamentals - Apr 2024 - Jun 2024 (completed)
- Regular self-study and hands-on practice in Unity, Firebase, and networking (2022-2025)
- Introduction to C++ Programming and Unreal (Coursera) (Mar 2023)
- Introduction to C# Programming and Unity (Coursera) (Oct 2022)
- Basic Chinese Language (Regent Language Institute)

LANGUAGES

- Sinhala - Native
- English: Professional (full professional proficiency)
- Japanese: Basic (JLPT N5 level study)
- Chinese: Basic
